

WILLIAM CLOSE
& ^{THE} EARTH HARP
COLLECTIVE

William has an immense collection of unique musical presentations, each one sculpted to that particular venue and audience. Each musical masterpiece introduces a new instrument such as the most famous Earth Harp, the Aquatar, Drum Cloud, Chime Sword, Drum Jacket, Violin Jacket, Long Bow Harp, Drumbrella, Wing Harp, Drum Orb and even Aerial Instruments!

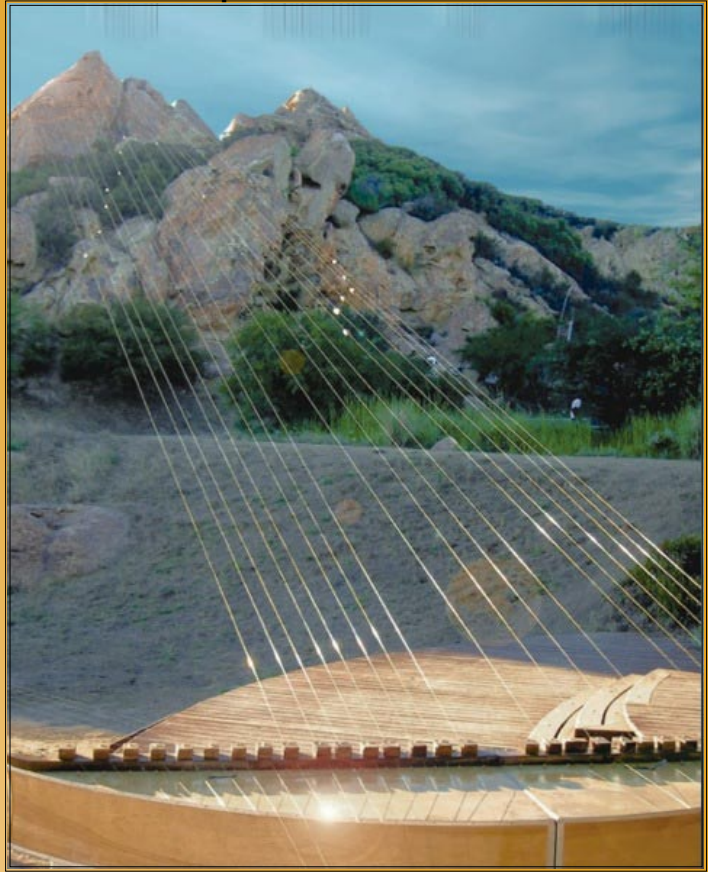

The Earth Harp Attached to the Seattle Space Needle! The Strings were each over 700 ft long!

Earth Harp Mountain Installations

One of William Close's original Earth Harp installations. The Strings attach into the mountain turning the Earth landscape into a giant harp. - *The Earth Harp*

Over 9000 feet of musical wire was used to make the instrument!

America's Got Talent

A performer for 20 years, **William Close** is a musician, lecturer and inventor who has created over 50 musical instruments, including the Earth Harp. William first set up the Earth Harp, the world's largest harp, across a valley that extended 1,000 feet. He has developed many

musical instruments, experiences and designs that are completely new to the world. His vision and ideas have been presented and celebrated all around the planet.

William offers a unique and creative speaking experience. He is presented on stage with some of his instruments such as the Earth Harp, Aqua Tar, Drum Jacket along with others. He takes the audience through his unique, inventive experiences with words along with his musical performance. William's lectures are very interactive as he gets the audience involved in the music, and the creation of their own design!

William Performs with The Earth Harp as it is strung to the Ancient Architecture of old Jerusalem!
